## Shopping

Our Science and Nature, Book, Toy, Puzzle & Game, and Candy Stores are options for shopping. If you choose to build in time for shopping, we suggest the following:

- (1) Let families know so that all children have a little money to select a treasure to take home.
- (2) Plan to divide children into small shopping groups, each with a supervisor.
- (3) Thirty minutes is a good amount of time to see the stores and make selections.

## Mini-Golf for Groups

Mini-golf players can be started sequentially on the course and play 50 at a time. Groups of players must not exceed 5 per hole, and each group must stay together during the whole game and follow the rules. Please help us by having kids divided into 4- or 5-person groups before we pass out clubs. Go over the rules of play and conduct ahead of time, and select one person in each group to be the scorekeeper.

## Field Trip Scavenger Hunt

For groups that want to learn about the LARK Carousel, toy antique collection, and more, we offer a LARK Field Trip Scavenger Hunt for fun and learning. We can email study guides to you upon request—either K-3 or 4-6 version; please specify—or you can download them from our web site.
